

Interlaced Bow Top

PCD02

Our traditional solid bar bow top railings are made to exceed the standards of BS 1772 pt9. Attractive as ornamental fencing, bow top railings can also provide a medium security solution provided the height is sufficient.

There are several standard patterns available and non-standard variations can also be supplied. As standard, the railings and posts are galvanised but we also offer a wide range of polyester powder coated finishes.

**Matching Swing or Sliding Gates can be Supplied*

Applications

Schools
Perimeter demarcation and security
Offices
Parks
Playgrounds
Residential
